

FuGEN's Information Assurance & IT Security Services

Application and System Security is the mission critical for many Federal, State and County Governments, as well as most private organizations. **FuGEN** supports clients when complying with OMB, HIPAA, Sarbanes-Oxley and FISMA requirements and ensures their security posture is completely and comprehensively documented and implemented.

FuGEN is proud to contribute to our Nation's security by providing information technology solutions to the Government and supporting infrastructure organizations worldwide. We comprehend the government's critical and sensitive requirements for information assurance and the magnitude of the transformation required to achieve the intended results.

Our past experience and expertise will assist you in compliancy with the Federal Information Security Management Act (FISMA):

- Network Security Architecture, Design and Implementation
- Certification and Accreditation Life-Cycle Implementation
- Security Training: End User and Management
- Security Risk Mitigation and Remediation
- NIST 800 Special Publication Guidance
- Risk and Security Control Assessment
- Business Impact Analysis (BIA)
- Security Policy Development
- Independent Assessment
- Project Management

Our IT Consultants have extensive experience in performing Information Assurance and IT Security Services, and hold CISSP, CISM, GIAC, CSP, and PMP certifications.
